Germans Sank Steamer Menapier and Drowned 17 of 23 Aboard

TWO WOMEN LOST
IN THE DESTRUCTION

Three Norwegian Ships Sunk, but Their Crews Were All Rescued

London, June 8, 12:35 p. m.—The Belgian steamer Menapier has been sunk to the bottom by a German torpedo near the north of Foreland. Out of the 23 persons aboard, only six were saved. The captain, the captain's wife, their daughter, the first mate, the pilot and 12 of the crew lost their lives.

German submarines have also sunk a Norwegian steamer, the Trudvang, and a Norwegian bark, the Superb.

Another Norwegian steamer reported sunk is the Glitterind. No loss of life is reported from any of the three Norwegian vessels.

The Trudvang was hailed by a German submarine soon after mid-day yesterday off St. Anne's head and after the crew had left in response to the orders of the submarine commander, the vessel was shelled and sunk. The shooting attracted a patrol boat, which the submarine attempted vainly to torpedo.

The sinking of the Superb occurred 50 miles west of Fasnet. High explosives were placed on board after the crew had taken to the boats. The survivors landed today at Margate. The crew of the Glitterind landed today at Tyne. Their vessel was torpedoed by a submarine.

ALLIES MOVING FORWARD.

Success Gained at Several Points in Western Arena.

Paris, June 8.—The following official communication was issued by the war office last night:

"In the sector north of Arras, very violent fighting continues and we are following up our progress. There has been an artillery engagement throughout the whole day without interruption of a violent nature, in the Fosse du Buval, at Allain, at Souchez, at Neuville and at Ecurie.

"At Neuville we continue the investment of the group of houses occupied by the enemy in the western section. At the 'Labyrinth' we have directed, on the centre of the work, convergent attacks which are making progress, and we have reached at two points, the central shelter of the position. Several counter-attacks have been repulsed.

"An attack by us to the southeast of Hebuterne has been completely successful. We carried by assault, two of the enemy's lines and the Tontvent farm, taking 400 wounded prisoners, of whom seven were officers, and captured some machine guns, the number of which has not been established. Several hundred bodies of German dead were found on the ground.

"A single German counter-attack was delivered, but this was immediately checked.

"To the north of the Aisne the enemy has multiplied his desperate efforts to recapture the two lines of trenches which we took from him yesterday. After having brought up reinforcements in automobiles for a distance of 80 kilometers (about 50 miles), the enemy made a furious counter-attack, but was completely repulsed. Two thousand German killed were left on the ground. We made 280 prisoners, among whom were an artillery officer and 28 non-commissioned officers. We captured six machine guns and many others were found under the ruins.

"We have destroyed by machine the three '77' pieces which fell into our hands yesterday. They were down behind the second German trench which we occupied and it was not possible to bring them into our lines by reason of the violence of the fire.

"Between Soissons and Rheims we have cut down several local attacks and thrust them back about 100 yards in the woods to the south of Villa au Bois.

"In Champagne, near Meuse, troops, brought by the Germans from their second line to their first line, probably with a view to an attack, have been dispersed by our artillery.

"At Vouziers, by way of reprisal, we sprayed flaming liquid on the trenches of the enemy, who replied with a bombardment.

"On the rest of the front there is nothing to report."

TYPHOID TAKES 75 PHYSICIANS

And Constantinople Water Works May Have To Shut Down.

London, June 8, 9:30 a. m.—An epidemic of typhoid fever is raging among the troops and civilian population of Asia Minor, according to reports from Constantinople, says a Reuters dispatch from Athens. Seventy-five physicians already have succumbed to the disease. There is imminent danger that the Constantinople water works system will be compelled to suspend operations because of the shortage of coal, and the output of the four mills will be restricted for the same reason, with the result that there will be an insufficient supply of water. The situation is said to be serious and many German families are leaving the Turkish capital.

KING'S CONDITION GRAVE.

Constantine of Greece Turns Suddenly For the Worst.

Rome, via Paris, June 8, 2:15 p. m.—Messengers have received a news dispatch

FRENCH OFFENSIVE MOVES
OVER A WIDE SECTION

General Cadorna, Italian chief of staff, in a report from the front, says the Italians are making methodical progress all along the front, taking possession of important positions. Apparently the main body of invading forces has not yet crossed the Isonzo river, but General Cadorna stated that strong detachments who had entrenched themselves on the further side are meeting with little opposition. Reports from Vienna say the Austrians were successful in several minor engagements with the Italians. Although there has been sharp fighting at various points, the Austrians are still postponing a decisive battle, which is expected soon.

Virtually the entire western line of battle in these portions held by the Belgians and British, have been the scene of what would appear to be a series of offensive movements, initiated by the French, according to London reports.

In the region of the Arras, the French have extended the area of their attack, while they are pressing all along the front from the angle of the Aisne and the Oise in a northerly direction, as far as the British positions near Arras.

Desperate German counter-attacks, according to French reports, have been made, but without success, and with a terrible loss to the attackers.

A German victory almost as striking as that in Galicia is said in Berlin to have been won in the Baltic provinces. A statement given out in Berlin by the Overseas news agency says a telegram from Constantinople states that the Turks have repulsed British attacks at Seddul Bahr and that thousands of dead Englishmen covered the field.

The chances of Bulgaria and Roumania entering the war with the allies is said to be diminishing, according to a Berlin despatch to the Cologne Gazette.

from Athens saying that the condition of King Constantine of Greece suddenly has become very grave.

ARMED STEAMER SUNK.

British Shells Destroyed a German Vessel, Says British Report.

London, June 8.—The German armed steamer Hermann von Wissmann has been destroyed near Spitzbergen, according to a statement given out last evening by the British official press bureau.

The statement says the Hermann von Wissmann was destroyed by the shells of a British naval force. The steamer had been lying in Lake Nyassa, South-east Africa, since her disablement by the Nyassa land steamer Gwendolyn last August. Spitzbergen is in German territory on the eastern shore of Lake Nyassa. It was bombed and captured May 30. The Germans were driven out with considerable loss by a bayonet charge. The only British casualty was one man slightly wounded.

BRITISH CITIZENS
KILLED AT TUXPAM

And Four Other Britishers Were Injured When Villa Is Reported To Have Captured Tuxpam in Mexico.

Washington, D. C., June 8.—Advices to the state department today from Vera Cruz transmitted by wireless a message from Tampico, reporting the capture of Tuxpam by Villa forces on Sunday. One British citizen was killed and four were injured during the fighting.

Consul Silliman at Vera Cruz also reported today that General Obregon's victory over the Villa forces at Leon appeared to be confirmed. He said it was reported that Obregon lost his right arm in the fighting.

LURING AMERICAN BOYS

To Enlist in the British Army, Is Charge Made in Boston.

Boston, June 8.—Federal investigation of the alleged activities of persons interested in obtaining recruits for the British army among American youth, yesterday brought to light four cases in which inducements had been offered youths to ship abroad, according to a statement by Congressman Peter F. Taggart last night.

Two young men, located by federal agents yesterday, said they were told they would receive a bonus of \$100, besides free transportation to England, if they would become British soldiers. Another boy, James Pope, who is 15 years old, he said he crossed to Liverpool as a stowaway on a transport steamer and enlisted there, but later deserted and returned home as a stowaway. He asserted that he and other young hostlers on the steamer were instructed by a recruiting sergeant to say that they were Canadians, and 15 years old.

The British consul-general at this port, Frederick P. Leary, said that he had no interest or connection with any recruiting scheme for the British army. Responsibility for the signing of American boys as horse guards, he said, must lay with the United States immigration officials.

Henry J. Skellington, immigration commissioner, said there was no law by which minors could be refused certificates of identification, although at times such certificates were refused boys who were obviously young.

President Wilson Will Not Be Hurried in Dealing with Germany

FINAL REVISION
OF NOTE TO-DAY

Declares No One Has Held Up Preparation of the Document

Washington, D. C., June 8.—President Wilson announced today that the note to Germany is about finished and would go forward shortly. He did not specify the day, but he said the document would be gone over in final revision to-day by the cabinet. The president explained that there has been no delay in the preparation of the note, that he had brought only the rough draft to the cabinet meeting last Friday and that there had been all sorts of suggestions since the cabinet met.

The general character of the document, however, he said, had not been modified, and he believed it had the approval of the entire cabinet. No one has held up the note, he emphasized, work on it being as expeditious as consistent with carefulness.

DEATH OF VERMONT VETERAN.

Col. William H. Munn Died Yesterday in Troy, N. Y., Hospital.

Troy, N. Y., June 8.—Col. William H. Munn, who served with distinction throughout the Civil war, died yesterday at a local hospital at the age of 77 years.

At the beginning of the Civil war Mr. Munn enlisted as a private in the 14th regiment, Vermont volunteers, and for distinguished bravery in action was made a captain. Later he was promoted to the rank of colonel.

After the war the state of Vermont presented him with an engraved testimony for his services. He was prominent in Masonic circles, both in this state and in Vermont.

MAN WAS MURDERED.

Stephen Moran's Death Followed by Two Arrests at Bangor.

Bangor, Me., June 8.—The discovery early yesterday of the bruised body of Stephen Moran in his bed in a lodging-house here, was followed last night by the arrests on charges of murder of Morgan Doyle, proprietor of the house, and Mrs. Lulu Moran, the dead man's widow. Three other persons who were in the house were detained as witnesses.

One of these, Miss Nettie Gray, made a signed statement to the police. In it she related that Sunday night, when Mrs. Moran complained to Doyle about her husband's alleged attention to another woman in the house, Doyle tried to eject Moran but was himself knocked down. Mrs. Moran, the statement says, engaged in the fight, and a moment later her husband was felled by a bottle.

He went to bed, according to the statement, and within half an hour his room had been broken into and his head crushed by three blows from a club. According to Miss Gray, she saw Doyle force him way into the room.

DIED AT AGE OF 108.

Mrs. Mary Ann Curtin of Hallowell, Me., Perhaps Oldest in New England.

An Exclusive New York Club.

In the June Woman's Home Companion Grace Margaret Gould gives a description of an exclusive dancing club in New York City which began with 20 members. It is called the Sunday Club.

Among the prominent men and women who are members of the club are: Mrs. John Jacob Astor, Mrs. Oakley Rhineland, Mrs. Alexander D. B. Pratt, Mrs. Stuyvesant Fish, Charles Van Rensselaer, Mrs. John R. Drexel, Mrs. Edward T. Stotesbury of Philadelphia, Mrs. Richard H. Townsend of Washington, Bradish J. Carroll, Governor Charles S. Whitman, Herman Oelrichs, Philip Lydig and Charles S. Moore.

Following is an extract from the article, giving more interesting facts about this club:

"Of course the exclusive ones have to have an exclusive place all their own. And I want there the other evening to see what they did and how they looked."

"And where in the world do you suppose I went? Well, it was not dancing in a barn, exactly, but it was the next thing to it. It was dancing in a stable, a glorified stable, built many years ago by that multimillionaire, William H. Vanderbilt, for the famous trotter, Mend S."

"This stable, you see, is still associated with the trot but with a difference. One that unrivaled race horse, Mend S. used to come dancing out to carry his master over the roadway. Now, high society dances within and instead of his stable, there is a veritable fairyland."

"Such are the surroundings which New York's new dance and supper club has provided for its members. This club started with 20 members, taking the name of the Club de Vingt. Its purpose was to provide an exclusive place where society people could go for supper, dancing and amusement after the theatre and opera. This purpose has been so perfect in execution that now the original membership of 20 has been multiplied several times."

THREE VEHICLES IN MIX-UP.

Carriage and Two Automobiles Near the Bailey Farm.

Two automobiles and a team figured in a triple mix-up near the Bailey farm between Montpelier and Middlesex last night in which the team sustained the most serious damages and its occupants the chief injuries. The horse was being driven by Edwin J. Boyce of Jones Brook and with him was Mrs. P. J. Lovely, while the machines were driven by Fred Landry of Montpelier and Fred Milne of Barre.

The two automobiles were going in the same direction and the team was proceeding toward them. The laundry machine was ahead and started to turn out to pass the team when the Milne car came up and started to pass the Landry auto. In explaining the situation afterwards, the driver of the Milne car said he was not going fast but that his brakes failed to work properly. Anyway, the three vehicles came together and the Milne machine and the team collided. Both Mr. Boyce and Mrs. Lovely were thrown out of the wagon and the horse was released from the carriage, running about 100 feet, while the carriage, with one shaft through the windshield, followed the machine into the field. Both Mr. Boyce and Mrs. Lovely were considerably bruised.

STRUCK LEDGE
NEAR HALIFAX

All of the 42 Passengers on Steamer A. W. Perry Were Taken Off

CAPTAIN AND CREW
STAYED ON BOARD

Accident Happened in the Thick of a Fog This Morning

Halifax, N. S., June 8.—The Plant Line steamer A. W. Perry, from Boston for Halifax, went ashore near the Sambro Head entrance to the harbor in a thick fog early this morning. All of her 42 passengers were safely landed, and it is believed that the steamer will be floated on the rising tide.

The steamer Perry ran into a fog bank soon after leaving Boston on Sunday and the weather continued thick throughout the entire trip. On nearing the entrance to the harbor the speed was reduced, so that when she struck a ledge just after daylight the shock was very slight. Few of the passengers were awakened.

Signals for assistance brought the tug Atlantic alongside within 10 minutes and the passengers were transferred without confusion and were brought here by the tug. Captain Ellis and his crew remained aboard the steamer and plans were made to send a wrecking fleet to attempt to float her at high tide.

FROM NORTH END TO SOUTH END

Special Deputies Were Kept Hustling By Trouble Calls.

Ball aggregating \$3,250 was required in city court today in holding for hearings respondents who figured in alleged altercations on Circle and West streets last night and on Webster avenue last Friday evening. On a charge of having assaulted Mrs. Anita Albattini of Circle street, Mrs. Regina Abbattini, wife of Celestino Abbattini, who lives in the same neighborhood, was held for a hearing in the sum of \$2,000. Because the authorities allege that he impeded an officer in attempting to make an arrest, Victor Diani of 29 Foss street, who pleaded not guilty to the charge, was remanded to police headquarters because he refused to furnish bail of \$1,000. His case is set for a hearing Saturday morning at 9 o'clock.

Mrs. Selling Albano, who was arrested by Deputy Sheriff Frank Blodan on a charge of assaulting Mrs. Paulo Simonetti of Webster avenue last Friday night, entered a plea of not guilty and furnished bail of \$200 for her appearance at a hearing this afternoon at 2 o'clock. Elia Beltrami, who was arrested last night, pleaded not guilty to a breach of the peace charge and furnished \$50 bail for his appearance at a hearing to be held Monday morning. The arrests were made on Grand Juror Webster's warrants.

Trouble among Circle street women is said to have precipitated the row which led to Mrs. Abbattini's arrest. A squad of deputies called to the south end around 10 o'clock found Mrs. Anita Albattini suffering from a wound on the head. She seemed to be in a serious condition and so thought Dr. W. D. Reid after making a superficial examination. Mrs. Abbattini was brought to police headquarters and arraigned at once before Magistrate H. W. Scott. Today it was stated that Mrs. Albattini's injuries are less serious than at first thought and it was intimated that the bail in her alleged assailant's case might be reduced. The officers are uncertain as to the nature of the weapon used in inflicting the wound.

Around 7 o'clock last night the flying squad of deputies hurried to Vine street to use their quelling influence on alleged trouble brewers there. Some difficulty was experienced in entering the street, which intersects Berlin street, and a detail of foot police found it necessary to open the way for the official automobiles. According to the version given by the officers, Deputy Sheriff William Hurry was about to arrest Beltrami, when Diani interfered. The latter was immediately subdued by Deputy Sheriff Dennis Donahue and lugged to police headquarters in a car. Diani objected strenuously to his arrest and had to be assisted forcibly into the police station.

A large crowd of onlookers once more demonstrated the efficiency of curiosity seekers in impeding the work of officers and a squad of deputies had to drive the spectators out of Prospect street.

In his cell today the respondent Diani gave out the following statement: "I am an inoffensive man and not guilty of the charge. When I saw the officers attempting to arrest my friend, Beltrami, without cause, I naturally objected. Justice will prove my innocence."
